Terms & Glossary

What Does Bioenergetic Field (BEF) Mean?

The flow of live energy connecting body, mind, and soul, traditionally known as Chi (or Qi) and Prana.
In scientific terms: An information flow on the quantum level.

What Does Individualized Microcurrent Frequencies (IMF) Mean?

Individualized Microcurrent Frequencies (IMF) are frequencies that are analyzed in real-time, modulated on microcurrent, and applied, for example, through adhesive electrodes.

What Does Cell Membrane Potential Mean?

Every cell of the body has its own membrane potential. Resting membrane potential is the difference between the electric potential in the cell's intracellular and extracellular matrices.

Cell Membrane Potential Model

According to Robert O. Becker and Björn Nordenström

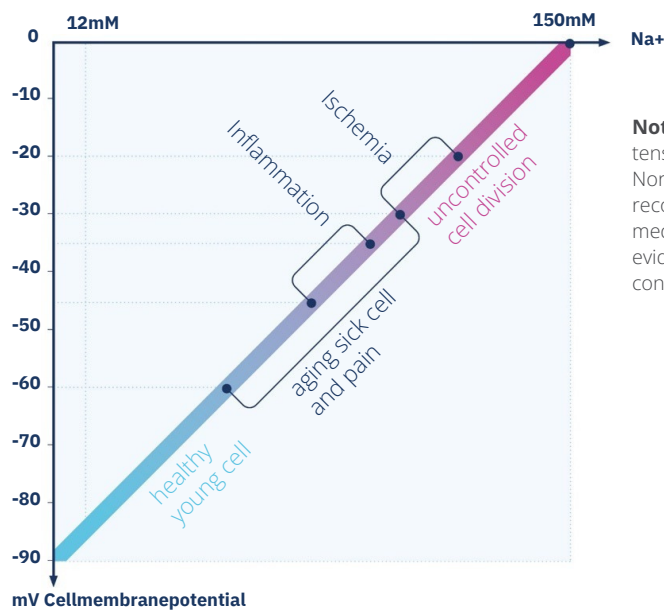

Prof. Robert O. Becker

Orthopedic surgeon and expert in electrotherapy, author of the modern electromedical 'Bible', 'The Body Electric' (1985).

Prof. Björn Nordenström

Professor Emeritus of Radiology at the Karolinska Institute in Sweden, former Chairman of the Nobel Prize Committee for Medicine.

Notice: The cell membrane tension model according to Nordenström is not recognized by conventional medicine due to lack of evidence in the sense of conventional medicine.

The Cell

Effects of Microcurrent

according to an animal study by NgokCheng et al.*

Increased amino acid transport

UP TO
40
%

Amino acids are the building blocks for protein synthesis.

Increased protein synthesis

UP TO
70
%

Protein synthesis is the process by which proteins are formed to build cells. It means creating physical life, following the central blueprint stored as DNA in each of our cells.

Increased ATP production

UP TO
500
%

ATP (adenosine triphosphate) stores energy in the cells, similar to gasoline in a car's gas tank. ATP is produced in the cell by the mitochondria. The mitochondria are the ATP-producing "power plants" in each cell of the body.

* Cheng, N., et al. (1982). The effects of electric currents on ATP generation, protein synthesis, and membrane transport in ratskin. Clinical orthopaedics and related research, 171, 264-72. This in vitro study refers to the effects of microcurrent and the basic mechanisms on which Healy frequency programs are based. It did not include any Healy devices.

The Healy

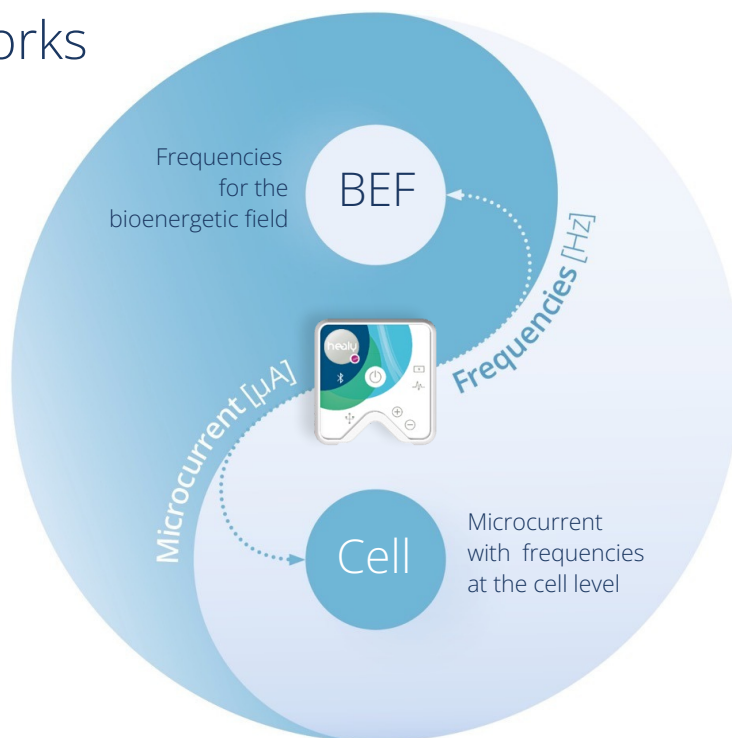

Healy Technology

How Healy Works

Bioenergetic field (BEF):
The flow of life energy connecting body, mind and soul, traditionally known as Chi (or Qi) and Prana.

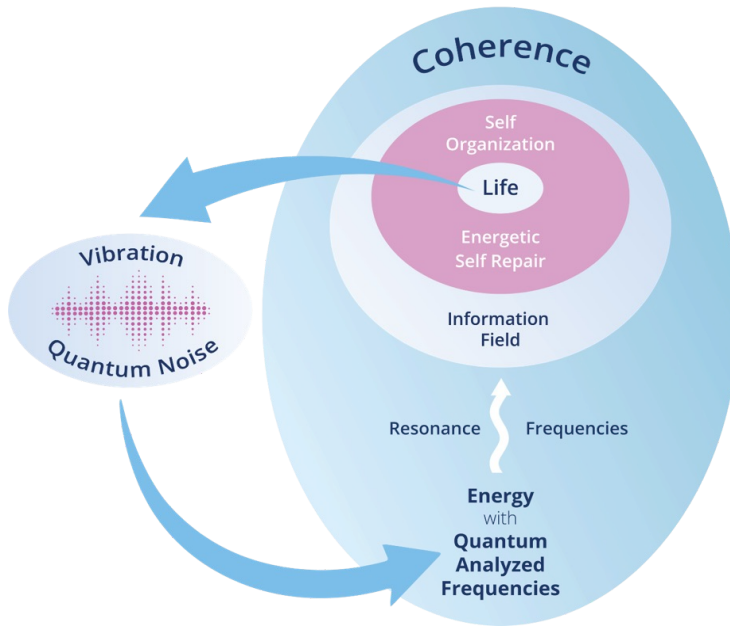

In scientific terms:
An information flow on the quantum level.

Quantum Analyzed Frequencies

"If you want to find the secrets of the universe, think in terms of energy, frequency and vibration."

Nikola Tesla

"All matter consists of energy vibrating at different frequencies. Therefore, Healy technology is based on my belief that electromagnetic fields vibrating at Quantum Analyzed Frequencies can provide the body with the information and energy it needs to harmonize its own energetic self-organization and self-repair. These specific frequencies can take the Bioenergetic Field of the body to a state of higher order, manifesting itself in holistic health, wellbeing and vitality."

**Notice:**

"Individualized Microcurrent Frequencies" ("IMF") is a proprietary technology of Healy World. It uses the data from a physical noise generator to assign a priority to frequencies that professional user experience indicates have the highest relevance for the user.

The duration, frequencies, intensity, frequency, naming, and the descriptions of the Individualized Microcurrent Frequency (IMF) programs are based on the practical experience of Nuno Nina and other experts and our understanding of the interaction of frequency modulated microcurrent with the Bioenergetic Field. They have not been confirmed by independent studies.

The Healy Individualized Microcurrent Frequency (IMF) programs are designed to support wellbeing through harmonization of the Bioenergetic Field. We have conducted unblinded before/after surveys in controlled and randomized groups of participants. These surveys suggest that the participants' wellbeing was higher after the application. We attribute this to the harmonization of the Bioenergetic Field, which we refer to as the energy flow of life, traditionally also called chi (or qi) and prana. This has not been confirmed by independent studies.

The Individualized Microcurrent Frequency (IMF) programs of the Healy device are not medical applications. They are not intended to cure, treat, mitigate, diagnose, or prevent any disease or medical condition. The terms used in the programs do not constitute statements concerning their effects. The purpose of the programs is to provide the user with a tool to explore application options. Healy programs should not be treated as a substitute for professional medical advice, diagnosis or treatment. You should always seek such advice from a qualified medical professional. If you have or suspect you may have a medical condition, or if you are under the care of a healthcare practitioner, you should consult your practitioner before using Healy. Always use your Healy according to the Instructions for Use.

**Disclaimer:**

Science does not acknowledge the existence of the Information Field, its analysis, harmonization and other importance due to the lack of scientific evidence.

Individualized Microcurrent Frequency (IMF) programs of the Healy device, Quantum Potential Frequencies (QPF) of the Healy Coil and the magnetic field programs of the MagHealy device are not acknowledged by conventional medicine due to the lack of scientific evidence in the sense of conventional medicine.
